## BULGARIA.

A Revolution Very Imminent. ST. PETERSBURG, November 1.—A revolution in Bulgaria is momentarily expected on the pretext of Russian occupation, which Karavallou's organ at Sofia announces is imminent.

Kaulbars Will Not Accept the Reply. SOFIA, November 1.—At the meeting of the Sbranie today M. Zerkoff was elected President. The English and Italian agents attended the meeting. Gen. Kaulbars has refused to accept the reply of the Regency to his ultimatum, and will leave Sofia. He has been to bombard the barracks and government buildings at Varna if any opposition is offered to the debarkation of Russians at the place.

Three Russian Vessels at Varna. LONDON, November 1.—It is rumored that three more Russian vessels have arrived at Varna.

## Kaulbars Wins Some What.

LONDON, November 1.—Advice from Travova say that in response to the government's request Kaulbars furnished the names of Russians whom he stated had been molested. The Russian agent replied that the government knows to whom he referred and that if fresh complaints are received he will act in accordance with his ultimatum. This reply, the dispatches say, is considered to be a partial withdrawal of the ultimatum. There is a general feeling of indignation in Bulgaria against Alexander, although the government is not to blame, as it believed the authorities only yielded to necessity.

## What the Russian Press Thinks.

ST. PETERSBURG, November 1.—Both the *Nova Vremya* and the *Novaia Zhizn* are full of articles of the Sbranie which is a fresh anti-Russian demonstration which jeopardizes the success of Gen. Kaulbars' negotiations with the Bulgarian government and may render the dispatch of the Russian men of war to Varna fruitless. The *Nova Vremya* says the Bulgarian people are not a political factor to be reckoned with. The army of Bulgaria, which is the only existing power that has hitherto been controlled by the regency, might be reduced to a band of armed political adventurers, who would not shrink from the most desperate means to save themselves and their instigators' lives.

## Detronement of Alexander Retained.

TRAVOVA, November 1.—Mayor Grouff and Capt. Benderoff, who were engaged in the revolution which resulted in the detronement of Prince Alexander, were permitted to leave prison yesterday evening after giving bail.

## A Great Labor Procession Headed by 500 Women in Mourning.

BRUSSELS, November 1.—Five hundred women dressed in mourning today led a procession of 12,000 persons gathered from surrounding towns, in funeral march to Charleroi. They carried banners inscribed with mottoes in favor of universal suffrage and an amnesty to strikers. They formed a solemn and orderly cortege. On leaving from Brussels, the procession attracted the sympathy of enormous crowds of onlookers. Upon its arrival at Charleroi the procession was augmented by 35,000 persons. Great excitement prevailed. A civic guard was under arms, and magistrates and other town authorities assembled in the Town Hall. The parade marched in perfect order for two hours, with bands playing the "Marseillaise." In the meantime the delegates waited upon the Mayor and Aldermen, in the Town Hall, and the secretary of the Glasworkers' Union, who was the spokesman of the party, read an address signed by all the workers' delegates in Belgium demanding universal suffrage and amnesty. The Mayor promised to transmit the address to the government, which he has seriously engaged in the task of redressing the grievances of the working classes. He also congratulated the delegates upon the orderliness of the demonstration. The parade dispersed quietly.

## A Melee Between Police and People.

DUBLIN, November 1.—Messrs. Dillon, Radmond and Sheehy, members of Parliament, addressed a monster meeting of the Nationalists at Longhugh, County Galway, today. Bishop Duggan, of Loughrea, sent a letter of sympathy. While the meeting was in progress a melee occurred between the police and people, during which the police drew their swords and batons.

## Nationalists Boycott a Magistrate's Court.

DUBLIN, November 1.—The Glen (County Limerick) branch of the National League, owing to the fact that which the Nationalists employed by Harland & Wolff, the White Star steamship builders, of Queen's Island, received, with the connivance of one of the chiefs of the league everywhere to see that Irishmen boycott the White Star Line until the firm releases the Nationalists from work. VIENNA, October 31.—The deficit in the Hungarian budget is attributed directly to the fact that in the last budget the Finance Minister estimated the revenues too high and the expenses too low, and secondly to the depression in agriculture due to the competition of American wheat and flour. The Ministry proposed to increase the transport dues on passenger's goods has elicited a storm of criticism.

## FRANCE.

## The Count of Paris's Coolness.

PARIS, November 1.—It is reported that the Count of Paris one night last week was sitting in his bedroom in the Sere House, near London, when he was awakened by a noise. He started, afraid of awakening his wife, did not shoot for help but pointed a revolver at the intruder, who fled. The Count had previously seen a stranger prowling around the house. The man entered by a ladder which he had placed against the window in the study of the Duke of Orleans. Whether he was a burglar or political enemy of the Count is not known.

## Turkey Will Not Help France.

LONDON, October 31.—It is learned on high authority that the French Government has received little encouragement from Turkey in the agitation against the British in Egypt. The French Envoy at Constantinople attempted recently to secure Turkey's aid in extorting from England a definite promise to evacuate Egypt at an early date. The Sultan emphatically refused to be a party to such a proceeding and informed the Envoy that the Porte could not agree with him in his structure on the English policy respecting Egypt. To this action of the Porte is the French Government. It recognizes the fact that Russia, although prepared to assist in united action, is disposed to adopt a course of which the Porte does not approve.

The writer of the article, who now publishes a card in the paper, apologizing for having made them, expressing the deepest regret at having been so deceived. Dr. Herz is satisfied with the apology. The attack on Herz is supposed to have been due to his friendship for the Radical leaders.

## Gladstone and Home Rule—England and Bulgaria—Affairs in Ireland.

LONDON, November 1.—Mr. John Morley, accompanied by Sir Wm. Vernon Harcourt, visited Hawarden today with the special object of inducing Mr. Gladstone to consent to the radical extension of the Leeds programme. There is small reason to expect that Mr. Gladstone will agree to make either the question of reform of the House of Lords or the Church question a plank in the platform. His business conference as a private citizen will be opened by Mr. Gladstone, who will introduce a motion expressing unabated confidence in Mr. Gladstone. Mr. Morley will move that the conference reaffirm its belief in the home rule principle and renew its declaration upon the questions of land, local government and free education. The absence of a developed political discontent the radicals.

The *Pall Mall Gazette* declares that the Liberal party has become merely a society of men saying "ditto" to Mr. Gladstone, and that the decadence of Mr. Gladstone, watched with dismay by his followers, some of whom look forward to the Tories retaining power for the next ten years. A section of the delegates intend to urge the conference to consider a proposal to reorganize the Unionist party by affirming that every act or order of the Irish Parliament interfering with the powers of the Imperial Parliament as contrary to the existing Imperial acts will be held void and unenforceable.

The Cabinet, at the first council since the cabinet decided to instruct Sir Wm. White, the British Ambassador at Constantinople, to insist upon an immediate conference at Constantinople to consider the Bulgarian situation and to demand the suspension of Russian interventionist diplomacy pending the decision of such a conference, the Porte renewing its entente cordial with England and is in favor of the proposed conference. Italy concurs, while Russia and France oppose the project. Germany and Austria remain neutral.
